

David Allman, SIA Board Vice President 2022-2024

DLA Piper LLP (US)

Dave Allman has worked on export control matters for well over a decade, most notably as the Director of International Trade Compliance (ITC) and Legislative Affairs at an aerospace and defense company, where he managed and directed the company's ITC program. That company's ITC program, which Mr. Allman developed, addressed every regulatory regime governing international trade, including ITAR, EAR, Customs, OFAC, Anti-Boycott, BATFE, the FCPA, and relevant host-nation Anti-Corruption policies. On numerous occasions he navigated the congressional notification process for exports exceeding the thresholds under the AECA. Mr. Allman was also a lead investigator for another aerospace and defense company under a consent agreement investigating potential violations of export controls. Prior to that, he served in the military with multiple tours in the Middle East, including Afghanistan and Iraq.
